Front-end developer with experience using technologies such as React, JavaScript/TypeScript, and TailwindCSS

Experience

HealthStream   **Sep. 2023 – December 2023**
Front-End Software Engineer Intern   *Nashville, TN*
- Developed and refactored multiple React components, improving the functionality of HealthStream's developer portal
- Updated and improved the developer portal's styling using TailwindCSS, creating a more responsive and visually appealing user interface
- Designed and implemented a POC for an API usage chart using Figma, React, and ChartJS, showcasing the visualization of API call frequencies with mock data
- Utilized Azure DevOps for project management, handling tickets on Azure boards and managing code merges and integrations via pull requests

NutriProyect   **November 2021 – December 2021**
Web Developer   *Miami, FL*
- Developed and launched an international e-commerce platform for a leading fitness supplement provider, facilitating sales in over 9 countries
- Worked closely with the marketing team to implement effective promotional campaigns and optimize product visibility through SEO
- Responded to technical support requests, troubleshooting and resolving issues promptly

Education

Western Governors University   **Graduated January 2024**
Bachelor of Science, Software Engineering   *Salt Lake City, UT*
- **Certifications:** AWS Certified Cloud Practitioner, CompTIA Project+, ITIL 4 Foundation
- **Relevant Coursework:** Data Structures & Algorithms, Software II - Advanced C#, Software Design & Quality Assurance, Advanced Data Management

Technical Skills

Languages:
- **Proficient:** JavaScript, TypeScript, HTML, CSS, SCSS, SQL
- **Familiar:** Python, C#

Technologies/Frameworks:
- **Proficient:** React, Next.js, TailwindCSS, shadcn, MongoDB, npm, Bootstrap, Figma, ChartJS, PropTypes, Git, WordPress
- **Familiar:** Redux, Jest, NodeJS, Angular, MaterialUI, Zod, Express, Firebase, .NET Maui, AWS, Azure

Projects

Fix Fleet | IT Ticketing Web App | Next.js, MongoDB, React, JavaScript, TailwindCSS
- Developed a full-stack IT ticketing Next.js application with custom built endpoints that integrate dynamic API routing, enabling ticket creation, updates, and deletions directly within the application interface
- Designed a MongoDB database schema for ticket storage, modularized the application into reusable React components, and used TailwindCSS to create a responsive UI
